SUMMARY

Highly motivated Front End Engineer with 5+ years of experience specializing in React, TypeScript, and modern web technologies. Expert in building highly responsive, scalable user interfaces, developing robust design systems, and optimizing client-side performance. Committed to delivering clean, maintainable code and exceptional user experiences.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass, SQL

Libraries & Frameworks: React, Next.js, Redux Toolkit, React Query, Tailwind CSS, Styled Components

Tools & Environment: Git, GitHub, Webpack, Vite, npm/yarn, Jest, React Testing Library, Cypress, Figma

Core Competencies: Responsive Design, Client-Side Performance Optimization, Web Accessibility (WCAG 2.1 AA), RESTful & GraphQL API Integration, CI/CD, Agile/Scrum

CAREER HIGHLIGHTS

- Re-architected a legacy client dashboard into React/Next.js, reducing initial page load times by 35% and improving Core Web Vitals.
- Led the development of an enterprise-wide reusable component library (Design System), saving 120+ engineering hours per week across multiple teams.
- Engineered responsive layouts and client-side performance optimizations, driving a 15% increase in user retention.
- Championed accessibility (WCAG 2.1 AA compliance) across all consumer-facing portals, expanding market reach.

EXPERIENCE

Senior Front End Engineer

FinTech Innovators

Oct 2022 – Present

San Francisco, USA

- Lead front-end development of the flagship investment platform using React, TypeScript, and Tailwind CSS, serving 500k+ active users.
- Reduced initial page load times by 35% through dynamic imports, code-splitting, and asset optimization.
- Designed and implemented a custom state management architecture using Redux Toolkit, reducing API overhead by 25%.
- Built a robust component library conforming to WCAG 2.1 accessibility standards, achieving 100% compliance.
- Mentored 4 junior and mid-level front-end engineers, conducting regular code reviews and tech sharing sessions.

Front End Developer

E-Commerce Solutions

Jun 2021 – Sep 2022

Seattle, USA

- Developed and optimized critical features for an international e-commerce storefront using Next.js and Styled Components.
- Built a fully-responsive shopping cart and checkout flow, contributing to a 12% increase in checkout conversions.
- Integrated GraphQL APIs with Apollo Client for efficient, real-time product catalog data fetching.
- Designed A/B tests for product detail pages, yielding an 8% lift in click-through rates (CTR).

Software Engineer (Front End)

Agri-Tech Startup

Oct 2020 – Jun 2021

Denver, USA

- Developed web-based dashboard using React and Chart.js for visualizing real-time agricultural sensor data.
- Translated Figma wireframes into pixel-perfect, modular, and reusable React components.
- Implemented unit and integration tests using Jest and React Testing Library, increasing test coverage from 40% to 85%.

Associate Software Engineer

Web Agency Corp

Sep 2019 – Oct 2020

Austin, USA

- Built responsive web pages and landing pages for diverse corporate clients using React, HTML5, and CSS3.
- Optimized legacy sites for mobile device responsiveness and cross-browser compatibility.

EDUCATION

Bachelor of Science: Computer Science

State University

2015 – 2019

San Francisco, USA

CERTIFICATIONS

- **Meta Front-End Developer Professional Certificate** (Coursera, 2023)
- **Certified Scrum Developer (CSD)** (Scrum Alliance, 2021)
